

PROJECT COORDINATOR R&D

IQ Products is looking for an enthusiastic *Project Coordinator R&D*, who can help with the expansion of IQ's intellectual property and portfolio. A team member who will be responsible for research and development in the area of Women's Health, specifically focused on perinatal in vitro diagnostics in *the field of pregnancy related disorders*.

Our new colleague will initiate and contribute to new and existing projects, with the R&D team. An active role in making and maintaining contacts in IQ's academic network in The Netherlands and abroad is expected, as well as communicating easily with our different departments. Apart from a background in (medical) biology and experience in a laboratory setting, we expect the candidate to have a commercial interest and drive.

Main responsibilities:

- Initiate, practically contribute to and coordinate research and development projects.
- Active participation in discussions on the development of IQ's portfolio.
- Initiate and coordinate grant applications in close cooperation with the Manager Product Development.
- Visits to national and international meetings and building of a network of key opinion leaders.

Our ideal candidate has:

- A Master Degree with a background in medical biology, immunology or biochemistry.
- Three to five year experience with flow cytometry.
- Knowledge of antibodies and antibody techniques (flow cytometry, ELISA, western blot).
- Excellent communicative skills and is able to work with deadlines.
- Outstanding verbal and written communication and presentation skills *in Dutch and English* are required.
- Is familiar with working under a quality system

IQ Products provides a varied and challenging position for 36 hours (full time) a week based in the Groningen office. We offer a salary in line with the job description, a positive

working atmosphere, a personal growth plan, great benefits, training opportunities and, when opportune, the possibility to obtain a PhD. The salary range is between € 2631 – € 3188 per month, depending on the level of education and experience.

Are you interested in this position? Please send your application with motivation and a resume or curriculum vitae to Hedy Wind by e-mail (h.wind@iqproducts.nl) before December 24th 2022.

Acquisition related to this vacancy is not appreciated.
